

anywhere in the US and abroad to submit research manuscripts to the JYE student journal.

## Humanities, Social Science, Engineering, Life and the Natural Science

The mind of an explorer welcomes the vastness of its questions, without worrying about specific technicalities and delivering answers immediately.

### Humanities, Psychology and Philosophy

- Essential knowledge that unites humankind
- *Human* essence to the spiritual principle
- A comprehensive study on *philosophy*

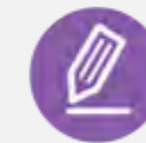

### Social, Economics and Business

- Human behavior, individuals and societies
- Research on *economic and business* issues
- Socioeconomic and *financial*

### Engineering and Technology

- Utilizes and invents engineering methods
- Investigation of problems arising in our life
- Concepts used in various fields of *engineering*

### Biological and Medical Sciences

- *Creative* thought and find inspiration
- Develop your imagination with *creative* method
- *Creative* procedures and technologies

### Sciences and Technologies

- Keen observation and analyses
- Nature and other related matters of life
- Alignment to standards

### Computers & Mathematics with Applications

- Theoretical basis for many subfields
- Developing algorithms
- Computational and mathematical simulations

## Special Features of the Current Volume

### History and Social Study

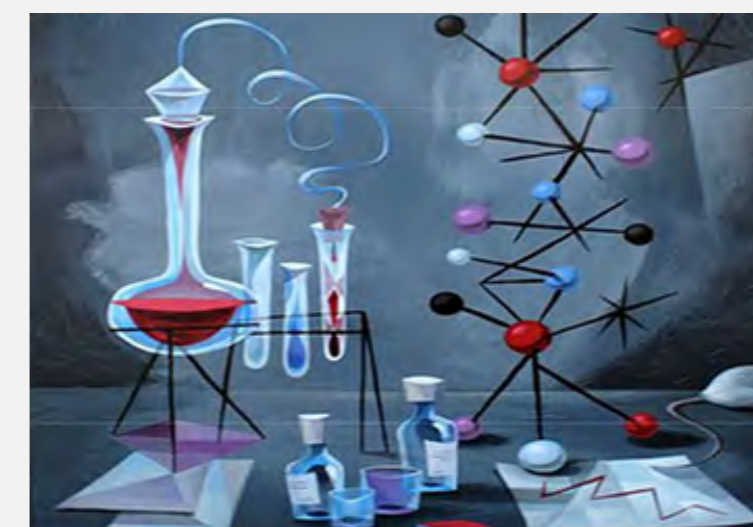

How the Space Theory Transformed the History Discipline <View>  
by Rebecca Vitenzen, University of Oxford

### Psychology and Political Science

On the Political Voice of Uyghur Poetry through the Gungga movement and Perhat Tursun's Elegy <View>  
by Eric Jiefei Dengn, Columbia University

### Science & Engineering

Assessment of Lake Water Quality and Quantity Using Satellite Remote Sensing <View>  
by Noel Cercizi and Jiali Chen, Brooklyn Tech. HS
