Transactions on Transportation Electrification

IEEE TRANSACTIONS ON TRANSPORTATION ELECTRIFICATION

About the Publication

Administrative Sponsor: Power Electronics Society (PELS)

Financial Sponsors: Industry Applications Society (IAS), Power & Energy Society (PES), Power Electronics Society (PELS), Transportation Electrification Council (TEC), Vehicular Technology Society (VTS)

Technical Sponsors: Industrial Electronics Society (IES), Reliability Society (RS)

The **IEEE Transaction on Transportation Electrification** (TTE) is focused on components, grid-interfaced technologies, standards, sub-systems, and systems related to power and energy conversion, propulsion, and actuation for all types of electrified vehicles, including on-road, off-road, off-highway, and rail vehicles, airplanes, and ships. Topics of interest include (but are not limited to):

TOPICS OF INTEREST +
