 issn: 1942-2679

The journal is dedicated to specific topics related to automation, static and mobile agents, decision systems, special computational paradigms, advances in computer-human interaction, human-oriented modeling, and human-centric service and applications.

Special issues can focus on particular aspects related to autonomic components and systems, advanced correlation algorithms, applications of artificial intelligence, adaptive and interactive interfaces, ubiquitous services, anticipative systems, unmanned systems, robotics, processing of distributed geospatial data, or context-oriented information retrieval and processing.

## Editors-in-Chief

Hans-Werner Sehring, NORDAKADEMIE - University of Applied Sciences, Germany  
 Steve Chan, Decision Engineering Analysis Laboratory, USA
