Welcome to IEEE World AI IoT Congress 2026

Continuing from the outstanding success of **IEEE AIoT 2025**, we are very proud to present **IEEE World AI IoT Congress 2026** which will provide an opportunity for researchers, educators and students to discuss and exchange ideas on issues, trends and developments in the related fields of AI and IoT. The conference aims to bring together scholars from different disciplinary backgrounds to emphasize the dissemination of ongoing research in the fields of AI and IoT. Research papers are invited describing original work in the above-mentioned fields and related technologies. The conference will include a peer-reviewed program of technical sessions. This year we will be hosting the conference physically.

This conference will also promote an intense dialogue between academia and industry to bridge the gap between academic research, industry initiatives, and governmental policies. This is fostered through panel discussions, keynotes, and industry exhibits where academia is exposed to state-of-practice and results from trials and interoperability experiments. The industry in turn benefits by exposure to leading-edge research in networking as well as the opportunity to communicate with academic researchers regarding practical problems that require further research.

All accepted papers will be presented physically during the parallel sessions of the conference and the accepted, presented papers will be submitted for publication at IEEE Xplore® digital library (Scopus, and Google Scholar).

Keynote Speakers at our previous conferences

IMPORTANT DEADLINES

Full Paper Submission	10th April 2026
Acceptance Notification	22nd April 2026
Final Paper Submission	12th May 2026
Early Bird Registration	30th April 2026
Presentation Submission	12th May 2026
Conference	20 - 22 May 2026
