Announcements

TII Launched on the IEEE Author Portal on 24 February 2025:

- TII now requires that all NEW submissions be entered through the [IEEE Transactions on Industrial Informatics Author Portal Submission Site](#)
- Authors who submitted prior to the IEEE Author Portal launch will finish the peer review life cycle of submission(s) currently under review on the ScholarOne site.
- The IEEE Author Portal requires an IEEE account. This is not the same as a ScholarOne account, so if you do not already have an account with IEEE you will need to create one on the IEEE Author Portal submission site.

Maximum page count changed:

- Regular Research Papers—Only new submissions since 01 January 2025 are allowed 10 pages maximum (strictly enforced). Final versions of such papers are allowed 12 pages maximum (strictly enforced). Overlength page charges will apply from page 11 onwards at \$250 per page (\$200 for IES members).
- State-of-the-Art/Survey Papers (with special permission from the EIC)— Only new submissions since 01 January 2025 are allowed 12 pages maximum (strictly enforced). Final versions of such papers are allowed 14 pages maximum (strictly enforced). Overlength page charges will apply from page 13 onwards at \$250 per page (\$200 for IES members).
- Letters—New submissions are limited to 4 pages and final versions to 6 pages (strictly enforced). Overlength page charges will apply from page 5 onwards at \$250 per page (\$200 for IES members).

Scope

The IEEE Transactions on Industrial Informatics is a multidisciplinary journal publishing technical papers that bridge the gap between theory and application practice of informatics in industrial environments. Its scope encompasses the use of information in intelligent, distributed, agile industrial automation and control systems. Included are knowledge-based and AI enhanced automation; intelligent computer control systems; flexible and collaborative manufacturing; industrial informatics aspects in software-defined vehicles and robotics, computer vision, industrial cyber-physical and industrial IoT systems; real-time and networked embedded systems; security in industrial processes; industrial communications; systems interoperability and human machine interaction.

Subject categories:

- Intelligent Computer Control Systems
- Flexible and Collaborative Intelligent Manufacturing Systems
- Industrial Communications, Networked Embedded Systems
- Industrial Informatics Aspects in Software-Defined Vehicles and Robotics
- Computer Vision Systems and its Industrial Applications
- Industrial Smart Grid, Power and Energy Systems
- Ground Transportation Systems
- Systems Interoperability and Human Machine Interaction
- Industrial Cyber-Physical Systems
- AI Enhanced Intelligent Systems and its Industrial Applications
- Industrial IoT Systems
- Signal Processing & Analysis
- Real-Time Control and Communication System

Editorial Board

Editor-in-Chief

Prof. Gerhard P. Hancke
(2023-2028)
University of Pretoria
South Africa
g.hancke@ieee.org

Past Editor-in-Chief

Prof. Ren C. Luo
(2016-2023)
National Taiwan University
Taiwan
renluo@ntu.edu.tw

Information for Authors

[View TII on IEEE Xplore](#)

- **Template for Articles [LATEX-Word] is given [here](#)**
- **Peer Review**
The articles in this journal are peer reviewed in accordance with the requirements set forth in the ([IEEE Publication Services and Products Board Operations Manual](#)). Each published article was reviewed by a minimum of two independent reviewers using a double-blind peer review process, in which the identities of the reviewers are not known to the authors, and the identities of the authors are not known to the reviewers. Articles will be screened for plagiarism before acceptance.
- **How to submit a paper:**
 - [Submission of a new manuscript](#)
 - [Submission of a revised version of the manuscript](#) (minor and major revisions)
 - [Submission of the final version of accepted manuscripts](#)
- **Resources for authors**

Policies and guidelines

- [ORCID is required for all authors](#)
- [IES Periodicals Editorial Policy and Guidelines](#)
- [Excerpt from IEEE publication policy \(All IEEE IPR guidelines\)](#)

Special Sections

- This journal does not publish Special Sections anymore.
