Engineering & Technology (E&T) Reference is a new world-class collection of multidisciplinary technical articles and real-industry case studies.

Working with leading engineering organisations, the IET has developed this new knowledge resource to help engineers, researchers and students at all levels solve their day-to-day technological challenges and improve engineering 'know-how'.

- Latest**
- Digital Radiography and Computed Tomography Methods for Gas Turbine Inspection**
Author(s): Stephen Halliwell
Source: [Engineering & Technology Reference](#), 2017, 6pp.
Publication date 01 December 2017
[Show details >](#)
 - Cyber security for smart grid components**
Author(s): Ronald Katzman and Mark Cioni
Source: [Engineering & Technology Reference](#), 2017, 6pp.
Publication date 20 October 2017
[Show details >](#)
 - Soil-Structure Interactions for Offshore Wind Turbines**
Author(s): Subhamoy Bhattacharya ; Georgios Nikitas ; Laszlo Arany ; Nikolaos Nikitas
Source: [Engineering & Technology Reference](#), 2017, [24, 16]pp.
Publication date 02 September 2017
[Show details >](#)
 - Part 4: Flexibility – Modular Power Protection in Industrial Applications: Understanding the 'litties'**
Author(s): David Bond
Source: [Engineering & Technology Reference](#), 2017, 4pp.
Publication date 22 June 2017

- Most viewed content**
- Synchronous reluctance motor technology: industrial opportunities, challenges and future direction**
Christopher Donaghy-Spargo
[View description](#)
 - Digital Radiography and Computed Tomography Methods for Gas Turbine Inspection**
Stephen Halliwell
[View description](#)
 - Soil-Structure Interactions for Offshore Wind Turbines**
Subhamoy Bhattacharya ; Georgios Nikitas ; Laszlo Arany ; Nikolaos Nikitas
[View description](#)
 - Synchrophasors data analytics framework for power grid control and dynamic stability monitoring**
Innocent Kamwa ; Louis Geoffroy ; Subhransu R. Samantaray ; Amit Jain
[View description](#)

- Most cited content for this Journal**
- Challenges in Design of Foundations for Offshore Wind Turbines**
Author(s): Professor Subhamoy Bhattacharya
 - Advanced Persistent Threat**
Author(s): Rob Sloan
 - Synchrophasors data analytics framework for power grid control and dynamic stability monitoring**
Author(s): Innocent Kamwa ; Louis Geoffroy ; Subhransu R. Samantaray ; Amit Jain
