International Journal of Environmental Research and Public Health

International Journal of Environmental Research and Public Health (ISSN 1660-4601; CODEN: IJERGH; ISSN 1661-7827 for printed edition) is an interdisciplinary peer-reviewed open access journal published semimonthly online by MDPI. It covers Environmental Sciences and Engineering, Public Health, Environmental Health, Occupational Hygiene, Health Economic and Global Health Research, etc. The International Society Doctors for the Environment (ISDE) and Italian Society of Environmental Medicine (SIMA) are affiliated with IJERPH and their members receive a discount on the article processing charges.

- Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions. High Visibility: indexed by the Science Citation Index Expanded (Web of Science), Social Sciences Citation Index (Web of Science), MEDLINE (PubMed), Scopus (Elsevier) and other databases. Full-text available in PubMed Central. Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020). Recognition of Reviewers: reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done. Testimonials: See what our authors say about IJERPH Sections: published in twenty-six topical sections

Hand-Washing Practices among Adolescents Aged 12–15 Years from 80 Countries

by Lee Smith, Laurie Butler, Mark A Tully, Louis Jacob, Yvonne Barnett, Guillermo F. López-Sánchez, Rubén López-Bueno, Jae Il Shin, Daragh McDermott, Briona A. Pfeiffer, Damiano Pizzol and Ai Koyanagi

Int. J. Environ. Res. Public Health 2021, 18(1), 138; https://doi.org/10.3390/ijerph18010138 (registering DOI) - 27 Dec 2020

Abstract The objectives were to (1) assess the prevalence of hand-washing practices across 80 countries and (2) assess frequency of hand-washing practice by economic status (country income and severe food insecurity), in a global representative sample of adolescents. Cross-sectional data from the Global School-based [...] Read more. (This article belongs to the Special Issue Health-Related Behaviours during the COVID-19 Pandemic)

The Risk of Gastrointestinal Bleeding between Non-Vitamin K Antagonist Oral Anticoagulants and Vitamin K Antagonists in the Asian Atrial Fibrillation Patients: A Meta-Analysis

by Kuang-Tsu Yang, Wei-Chih Sun, Tzung-Jiun Tsai, Feng-Woei Tsay, Wen-Chi Chen and Jin-Shiung Cheng

Int. J. Environ. Res. Public Health 2021, 18(1), 137; https://doi.org/10.3390/ijerph18010137 (registering DOI) - 27 Dec 2020

Abstract Background: Non-vitamin K antagonist oral anticoagulants (NOACs) are more commonly used to prevent atrial fibrillation (AF) patients from thromboembolic events than vitamin K antagonists (VKAs). However, the gastrointestinal bleeding (GIB) risk in the Asian AF patients associated with NOACs in comparison with VKAs [...] Read more. When Land Is Under Pressure Health Is Under Stress

by Aderita Sena and Kristie Ebi

Int. J. Environ. Res. Public Health 2021, 18(1), 136; https://doi.org/10.3390/ijerph18010136 (registering DOI) - 27 Dec 2020

Abstract The land provides vital resources to support life on Earth. Land ecosystems services have social, cultural, and spiritual benefits and promote human health and well-being. However, human activities, particularly ongoing unsustainable land practices, are negatively impacting ecosystems through desertification, land degradation and drought [...] Read more. Oral Health and Autism Spectrum Disorders: A Unique Collaboration between Dentistry and Occupational Therapy

by Dominique H. Como, Leah I. Stein Duker, José C. Polido and Sharon A. Cermak

Int. J. Environ. Res. Public Health 2021, 18(1), 135; https://doi.org/10.3390/ijerph18010135 (registering DOI) - 27 Dec 2020

Abstract Children with autism spectrum disorders (ASD) are at risk for oral health disparities. With the dramatic rise in ASD prevalence to 1 in 54 children, it is likely that an increasing number of dental practitioners will encounter or be asked to treat children [...] Read more. Association between Obesity and Overweight and Cardiorespiratory and Muscle Performance in Adolescents

by Peter Petrovics, Barbara Sandor, Anita Palfi, Zsolt Szekeres, Tamas Atlasz, Kalman Toth and Eszter Szabados

Int. J. Environ. Res. Public Health 2021, 18(1), 134; https://doi.org/10.3390/ijerph18010134 (registering DOI) - 27 Dec 2020

Abstract The high prevalence of obesity in childhood and adolescence has major public health consequences, since it is associated with various chronic diseases in the short- and long-term. The goal of our study was to examine the possible association between obesity and overweight and [...] Read more. (This article belongs to the Section Adolescents)

Developing Age-Friendly Cities and Communities: Eleven Case Studies from around the World

by Samuèle Rémillard-Bollard, Tine Buffel and Chris Phillipson

Int. J. Environ. Res. Public Health 2021, 18(1), 133; https://doi.org/10.3390/ijerph18010133 (registering DOI) - 27 Dec 2020

Abstract Developing age-friendly cities and communities has become a key part of policies aimed at improving the quality of life of older people in urban areas. The World Health Organization has been especially important in driving the 'age-friendly' agenda, notably through its Global Network [...] Read more.
